P.O. Drawer 11649
Columbia, SC 29211

Re: Docket No. 2009-489-E

This is the most inconsiderate thing a company can continue to do to there customers. We recently experienced rate hikes and now you are about to press another hike on us. There must be an end to all this abuse of customers. I don't mind taking this concern to all the levels of this state that is necessary and I am pretty sure that I can generate enough power and signatures that will make the government look at other options and make them available to the customer.

As a working citizen in this community I think that there must be other ways to do what needs to be done without imposing another price increase on the customers. You leave the customer no choice when you are the only service provider in there town.

I am going to write a letter to the president of the united states and let him know how these big companies and corporation take advantage of the little people who work hard every single day just to provide food for there families and now we are being faced with making a decision to pay a light bill or not. This is not fair and there must be an end to this madness.
